## Professional Summary

Hey there! I'm an accomplished Full Stack Developer with 6+ years of experience creating web applications that aren't just functional but also sleek and user-friendly. My toolkit includes everything from HTML, CSS, and JavaScript to modern frameworks like React and Next.js along with backend expertise in Node.js, MongoDB, and MySQL. Whether it's optimizing performance, building robust APIs, or creating seamless user experiences, I'm all about delivering results that make an impact today while keeping an eye on tomorrow.

---

## Education

**Lovely Professional University, Jalandhar** (*Bachelor's Degree in Computer Science*)

**GPA:** 7.85 | **Graduation Date:** August 2022

- **Key Projects:** *Data Structure & Algorithms Presentation, E-commerce Site with Admin Panel*

**Government Polytechnic College, Amritsar** (*Diploma in Computer Science*)

**Grade:** A | **Graduation Date:** June 2019

- **Key Projects:** *Tourism Guide Website, Teacher and Student Management System*

---

## Professional Experience

**SAAMA Technologies, Pune, India**

**Senior Full Stack Developer (L3) | July 2024 – Present**

- Took the lead in building a micro-frontend (MFE) app that pulls together various analytics dashboards into a one-stop-shop solution.

- Customized MFE to align with root app security protocols.
- Designed React components that follow Genentech's design guidelines, ensuring seamless integration by leveraging SCSS and Bootstrap
- Brought Qlik dashboards into the MFE environment and Implemented Tableau's trusted ticket mechanism for a smoother login experience.
- Collaborated with the team using Agile tools like Jira and Confluence to keep everything on track.

### **FREEDOM, Sydney, Australia**

**Full Stack Developer** | *March 2024 – June 2024*

- Enhanced mobile usability of the member portal, improving user engagement by 60%.
- Automated email invitations, increasing event participation.
- Enhanced AI interactions to provide a more intuitive user experience.
- Streamlined HubSpot workflows, boosting data management efficiency.

### **Intygrate, Sydney, Australia**

**Full Stack Developer** | *December 2022 – February 2024*

- Developed efficient MongoDB-powered RESTful APIs for seamless data handling.
- Created a drag-and-drop admin interface, reducing setup time by 50%.
- Launched an e-commerce platform with integrated payment gateways, increasing sales.
- Built a robust, high-traffic web application optimized for performance and scalability.

### **DESTM Technologies, Mohali, Punjab**

**Full Stack Developer** | *January 2022 – November 2022*

- Upgraded web applications using React and Node.js for improved performance and scalability.
- Developed Single-Page Applications (SPAs) for a smoother, faster user experience.
- Implemented accessibility features, expanding usability and growing the user base by 15%.
- Conducted automated testing to ensure high-quality, bug-free deliverables.
- Mentored junior developers and improved code quality through regular reviews.

### **Netweb Technologies, Amritsar, Punjab**

**Front-End Developer** | *January 2019 – December 2021*

- Improved front-end architecture to enhance scalability and performance, increasing site speed by 20%.

- Created SPAs with React and Redux, improving responsiveness and reducing load times by 40%.
  - Revamped UIs, leading to a 30% increase in user retention and engagement.
  - Managed a team of five developers, ensuring timely delivery of projects with high-quality standards.
-
